Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-3, 5 and 7-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Lee et al (US Patent 5,480,403).

Lee et al disclose a bioabsorbable copolymer of glycolide or lactide (**Column 4, Lines 22-29**) implantable cross-pin (**Figures 4-6**) comprising: an elongated member extending from the proximal end (**134**) to a distal end (half of the length of **Figure 5**); a bullet-shaped nose member (**131** and rest of **132**) extending out from the distal end of the elongated member; an axial trough (**135**) in the elongated member; a guide wire opening (an end of **133**) in the distal end of the nose member; and an interior tunnel having a passage with an enclosed circular perimeter (rest of **133**) extending axially (both the perpendicular axial direction as well as longitudinal axial direction along **135**).

Claims 1-3 and 7-9 rejected under 35 U.S.C. 102(e) as being anticipated by Supinski (US Patent 6,579,295).

Supinski disclose (**Figures 4-8**) a bullet-shaped bioabsorbable (**Column 7, Lines 40-44**) device comprising: an elongated member (majority of **80** except for portion including **88**); a nose member (rest of **80** containing **88**); an axial trough (**82**); a guide wire opening (distal end of **88**); and an interior tunnel (rest of **88**) with an enclosed circular perimeter.

Response to Arguments

Applicant's arguments filed August 30th, 2007 have been fully considered but they are not persuasive. In regard to Lee et al, the recommendation for enclosed perimeter was with regard to the first interpretation. Therefore, the first interpretation has been withdrawn and only the second interpretation still remains. Clearly, portion 133 of Lee et al is "circular" and "enclosed."

Hayhurst et al has been withdrawn due to amendment with Supinski now applied.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
